**PROPOSAL QUESTION -RESPONSE**

1. Q. Please extend the due date for this procurement by two weeks. The current schedule of only 8 business days from document release to due date is simply not enough time for bidders to review the procurement documents, produce engineering designs, prepare a response and deliver it by courier. The additional time will allow bidders to provide the best possible options for KCATA.

**A. 10/21/24 is the correct date.**
3. Q. If a bidder proposes a product that meets the stated design criteria, do they have to submit an approved equal submittal. What documentation is required to be included in an approved equals submittal, and what is the review process for approval  
**A. The design review is part of the evaluation process and proposers should include detail information to allow for a thorough evaluation of the submittals.**

A. All approved that were submitted have been approved contingent upon meeting all specification.
